Are You ON THE RIGHT TRACK

Why even the best fail in the 1st stage: UPSC Prelims

Underestimating the IMPORTANCE of PRELIMS

- **Success ratio** of 3:100 vis-à-vis Mains (1:5) and the Interview (1:3)
- **Colossal dynamism**—enormous variation in proportions of static vs. dynamic questions
- Demands **extensive coverage** of current events and their interlinkage with the breadth of static knowledge

Prelim Mock Tests: Reading from photocopies/PDFs

- Aspirants who mug up questions without practicing them in an **efficient mock exam platform** and in a **time-bound manner** often fail to perform on the actual exam day
- Pirated Mock Exams may save you some fees, but will cost you your precious youth if you fail in Prelims (**Time is Money**)

Not using ELIMINATION techniques

- Mere extensive reading and overreliance on knowledge to solve questions, one soon finds out, is not the solution.
- Leads to **less number of attempts**.
- One is forced to resort to **random guessing & this carelessness** can cost you heavily.

Preparation without a STRATEGY

- Poor grip over the UPSC **syllabus**
- **Irrelevant study material** – reading from too many sources
- Not analyzing the **strong and weak areas**
- Not revising the questions
